"What does your front door say about you..?"

Solidor®

Leading the way in secure composite doors

Introduction

The Solidor Collection is an outstanding range of industry leading, solid timber core composite doors. Each Solidor exceeds building regulation requirements and combines traditional and contemporary styling with a full range of Secured by Design locking which provides a stunning, high quality and secure entrance to any home.

With a thickness of 48mm, a Solidor door is nearly 10% thicker than most alternatives. Each unique solid timber core is completely encapsulated within a highly durable plastic edge banding and two thermo plastic door skins. This means that your customer will never have to worry about painting or varnishing their Solidor.

These doors are exclusively available in the widest range of styles and frame colour options, (23 colours available, please see page 8) with the option of a mobility threshold, making it the perfect solution for easy wheel or push chair access. We offer a comprehensive range of matching coloured frames, that are available with either glass, composite side panel or quarter panel to compliment the look of any property.

Solidor composite doors are manufactured to the highest standards. We hold BSI Kite mark accreditation BSI ISO 9001 for quality management, BSI EN1279 for insulating glass units.

We are also PAS24:2016 certified, hold CE Marking and Secured by design licences, and are members of the prestigious GGF and Association of Composite Door Manufacturers.

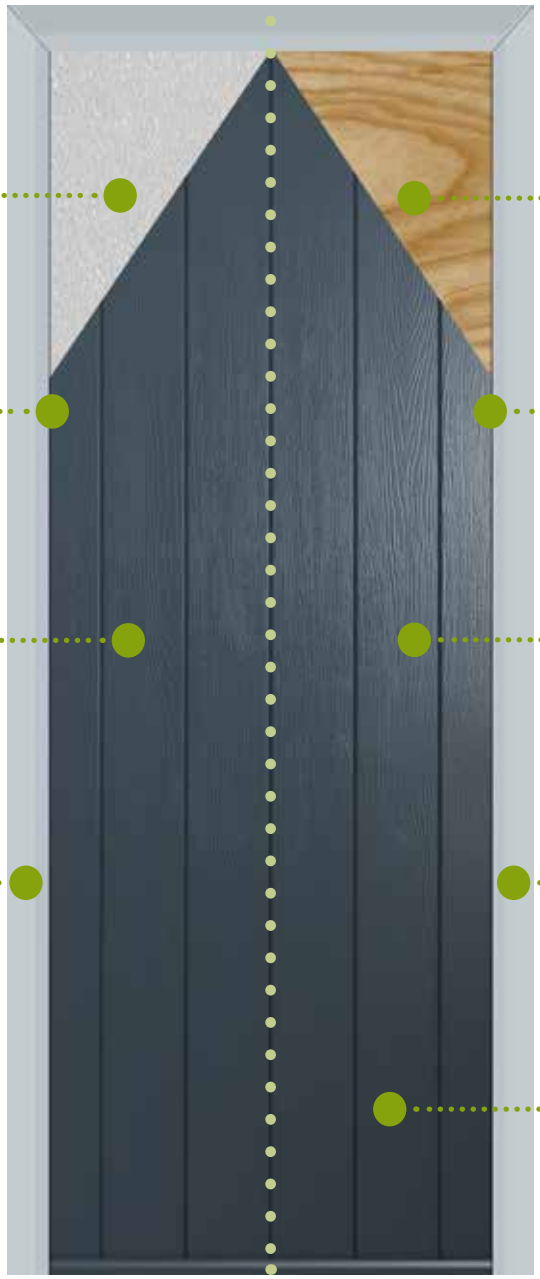
Choosing **Solidor**®

We understand that knowing your home and family are protected is a major factor when choosing a new door.

You can rest assured that with our door construction, coupled with our unique, reinforced door frame and Secured by Design locking systems, your home will be as safe as can be when you choose Solidor.

A *typical* **foam filled** door construction

Solidor's *unique* **solid timber** construction



40mm Foam Filled Centre performs thermally, but because this is a foam fill it is neither solid, nor secure.

44mm Solid Timber Core that is thermally efficient and extremely secure.

Visible Edge Banding as a result you will often see a different coloured line running the length of the door.

Hidden Edge Banding so the front of your door remains a solid, glorious slab of colour.

Gel Coated GRP Outer Skin may offer protection but can be easily cut through. Also, because every door is a white blank that is surface painted they show scratches very easily.

'Through' Colour ABS Skins made from the same durable plastic as Lego©. Also, because the entire skin is made of a solid colour, any scratches are practically hidden.

3 Chamber Profile which use valuable steel or aluminium reinforcements. Also, you should check if they are lead free.

Lead Free, 5 Chamber Profile which uses 100% recycled reinforcing. Generally, the more chambers that a profile uses, the stronger and more thermally efficient they are.

Wood Grain Effect Skin that gives all of the aesthetics of timber, but without the time consuming maintenance.

Security

The **most secure** composite door on the market

Lock options

The Largest Deadbolt in the UK!

On lever handle doors we fit our Avantis Secured by Design lock. This has the industry's largest 25.4mm deadbolt for added security.

It also has built in compression and dampeners to give the smoothest operation on the market.

Automatic AV2 Mech Lock

The automatic AV2 mechanical lock operates as a slam secure lock as soon as the door is closed.

AV2 B allows home owners to unlock the door from a distance using a remote control device. (Only available with a lever/lever handle)

Automatic AV3 Mech Lock

The new autoLock AV3 automatic multi-point locking system has a magnetic trigger in the frame. Two self-locking sturdy hooks provide security and two sealing elements ensure correct closure.

A daytime release function is integrated as standard with easy one-handed operation or motorised release.

Lock Positioning

Standard Slam Shut Auto lock

The Slam Shut lock is an automatic multi-point locking system. It features two

self-locking hooks to provide additional security and two sealing elements ensure correct closure.

Heritage Slam Shut Lock

The aesthetics of a traditional rim latch, but incorporates the latest high security slam shut technology.

The lock automatically engages as the door closes.

Key Operated Multi-Point Lock

Customers who do not want handles can upgrade to our key operated multi-point lock.

Supreme Security Accreditations

THE Italia Collection

The Italia collection from Solidor is a new generation of truly contemporary designs which will add a touch of style to your home. Carefully designed and crafted from the finest materials, every door in the Italia collection has a definite style inspired by the Italian passion for design.

Each door is handmade in Staffordshire, ensuring the finished product is of an outstanding quality and made as individual as can be. Choose from a range of glass styles and door furniture which have been carefully chosen with the latest fashion and designs in mind. All of the doors in the Italia Collection are also available with Warwick Glass - hand made so no two pieces are ever the same.

Pilkington Texture Glass Warwick™

This design is unique amongst our patterns because it is produced using a different manufacturing method. Pilkington Texture Glass Warwick™ is a random pattern that is added along the central portion of the pane and this has implications when cutting the glass down into finished sizes. It is possible, if a pane is small enough, it could be cut with no evidence of the pattern at all.

None of the Pilkington patterns are designed to have an orientation (an up side) but care needs to be taken with adjacent panes that the pattern direction is maintained. There is a linear nature to Pilkington Texture Glass Warwick™ and so householders should be aware that there could be aesthetic implications when choosing this design. Also, for the glass supplier the result may be that this pattern is less accommodating when cutting and may result in a greater proportion of selvedge from the original glass plate.

Warwick Glass available in all of our Italia doors

Abstract Glass available in the Pisa,Turin and Siena

Satin Glass available in all of our doors

This information is intended for illustration purposes only and may be subject to change for reasons beyond our control. As a consequence this brochure should be used for guidance only.

THE Traditional Collection

The Traditional collection from Solidor, brings classic designs into the modern era. Each door design is suited to both traditional and modern properties alike, and will add a touch of elegance to every home.

Classic British design

IDEA

Use wall spaces to display an alternative classic letterbox, in a style to complement your door.

TIP: Make a statement and frame the doorway with a walled path for a truly grand entrance!

Ludlow

With a truly natural looking woodgrain effect, our classic British door designs are *timeless*.

Achieve an authentic Victorian look with the Ludlow, fast becoming Britain's most popular door.

With simple clean lines, the Ludlow has the power to create either a modern or a traditional entrance for your home. Available as a solid door for added privacy, or with two glazed panels, the Ludlow combines classic Victorian design with modern materials. Either option will create a polished and sophisticated entry.

▼ *Lighten it up*

Open up your front entry with glazed panels on both sides of your door. They will flood your hallway with light, make your entry seem larger, and enhance your home's architectural style.

◄ *All in the detail*

Our elegantly shaped handles and accessories in sleek chrome suit this Ludlow perfectly.

Visit www.solidor.co.uk/accessories to view our range of hardware

▲ *Back to basics*

Keep it simple by adding ornate planters either side of the door or a hard wearing welcome mat - enough to complete the subtle look in smaller spaces.

Which Colour?

Choose Schwarzbraun with stained glass and traditional door furniture to retain the door's original Victorian charm, or give it a contemporary edge by opting for French Grey with polished chrome accessories.

Choose your colour from our new and updated range on page 18 →→

French Doors

All of our designs, in all of our colours are available in a French Door option, with a range of handle options, encompassing a high security, adjustable, multipoint locking system.

Available as inward or outward opening doors. Because our French door range is so vast, please contact us for the minimum and maximum sizes before you order your set.

NOTE: Available with UPVC and aluminium threshold on inward opening sets, and UPVC only on outward opening sets.

Flush, integrated two way lever, which throws the shootbolts and removes the need for a lever handle and cylinder to give the option to use our Italia Collection handles on both leaves, alternatively, go for lever operated!

Standard option is both doors to be lever handle operated.

Stable Doors

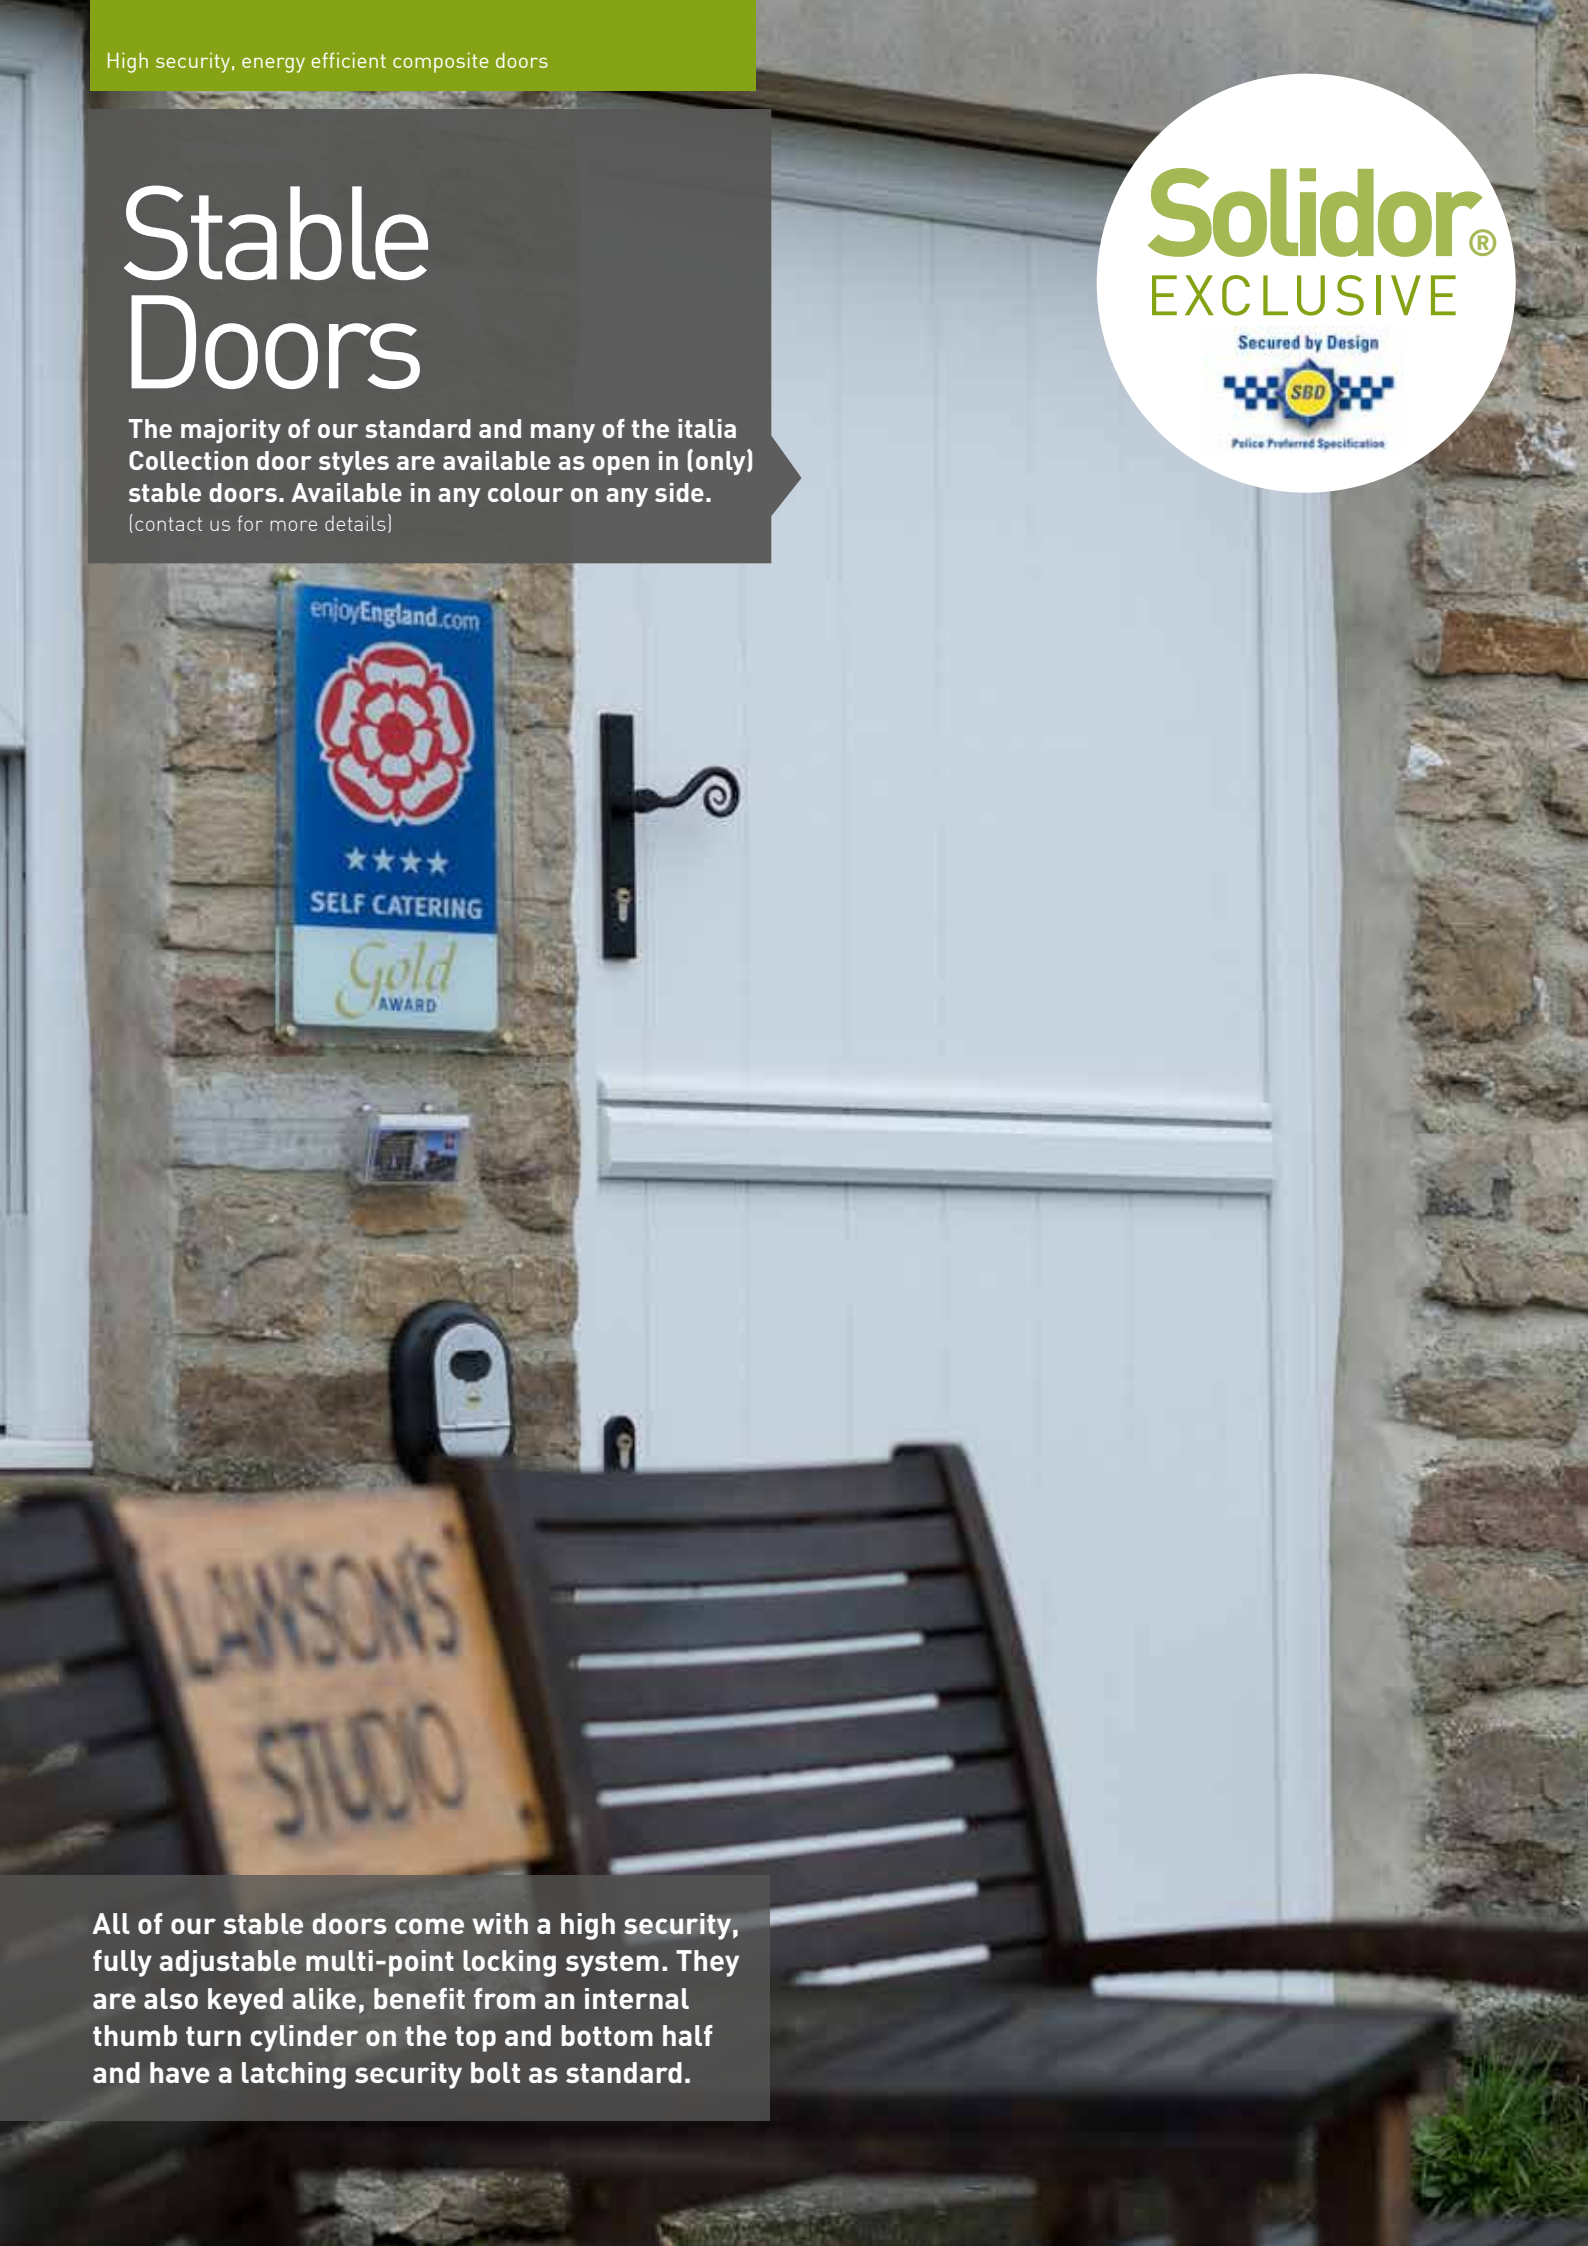
The majority of our standard and many of the italia Collection door styles are available as open in (only) stable doors. Available in any colour on any side.
(contact us for more details)

Solidor® EXCLUSIVE

Secured by Design

SBD

Police Preferred Specification



All of our stable doors come with a high security, fully adjustable multi-point locking system. They are also keyed alike, benefit from an internal thumb turn cylinder on the top and bottom half and have a latching security bolt as standard.

Side Panels

Reflections

Tie the vintage look together with wicker or ceramic hanging baskets.

Selina Says

"Solidor gave me the realistic wood grain effect I was looking for, but they use modern materials for absolute piece of mind"

Style guru Selina Lake *chooses* Solidor®

Beeston Stable

Vintage farmhouse or chic and contemporary,
the style is as adjustable as the door itself.

Suited to both period and modern properties alike, the Beeston Stable Door allows you to bring the outside into your home.

Bring the outside in

"They're a great option for a side or rear door" says Selina. "The two independently operating doors bring the outdoors inside, increase the flow of natural light, help with air circulation during the warm summer months, and all the while keep your children and pets safely contained."

Make a feature

Selina decorated her door with a wreath (they aren't just for Christmas you know!) Keep your door looking fresh all year round by replacing the door wreath with the changing seasons.

All of our standard, and many of our Italia Collection, door styles can be converted into a stable door.

Create a landing spot

Give your outdoor space or porch area a sense of comfort by placing a piece or two of weather-resistant furniture near the entry. A bistro set is an easy addition for any patio size, and a perfect spot to relax outdoors with a cup of coffee!

Selina Says

"It took a while for us to decide what colour to choose, but their design your own door application was fantastic, I'm so happy we went for Anthracite Grey."

Selina used our online door designer to create her dream door. Try it for yourself here:
