

# ULTION

---

Home Defence System

## Your door the weak point

Millions of doors in the UK can be opened quietly in under 10 seconds with normal tools.

Even the most secure multi-point hook mechanisms are disabled when the cylinder lock is snapped.

Securing your doors with Ultion defends your home from this and all other known attack methods.

74%  
of intruders go  
through **the door**

43%  
get through the door  
by **forcing the lock**

9/10  
forced locks are  
**snapped**

The pins inside locks protect you. Most locks have 5 or 6.

Ultion uses 11.

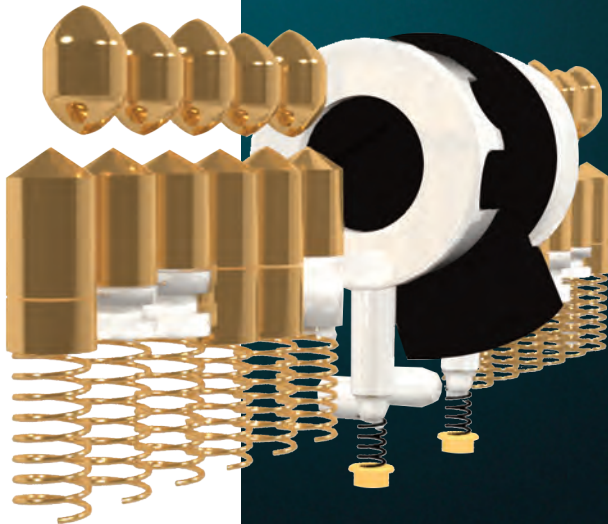

This creates 294,970 key combinations. Even high street banks only specify 100,000.

# 11 Pins

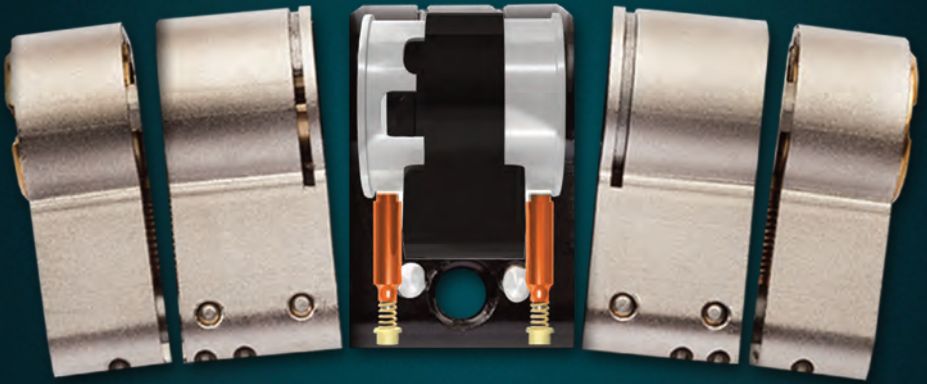

# 294,970

key combinations

# Lockdown mode

Hidden locks **engage**  
when attacked

# 25% denser than iron

The hidden locks that secure your home when attacked are housed deep in the molybdenum core.

This is 25% denser than iron and gives extreme protection from screwdrivers, hammers and drills.

More comfortable  
to use

Hides the keycode  
(more secure)

Looks stylish  
and cool

Simply clips onto  
your existing key

# Different Colours

With 8 colour combinations you can spot

# Designed for Ultion

Very few things go with us everywhere, our keys do. Keycap makes your keys look great and feel much more comfortable whether in your pocket or your hand.

## for Different Doors

which key operates which Ultion secure door.

Still  
works  
after an  
attack

If an intruder snaps  
Ultion and breaks  
into your home we'll  
pay you £1000.

.....  
  
**£10**  
**GUARA**

Lockdown mode stops the intruder from opening your door.

After the failed attempt your door can still be opened and locked from inside.

Register your lock for free

[www.ultion-lock.co.uk](http://www.ultion-lock.co.uk)

The dial on an Ultion thumb turn can be left in any position and you won't be locked out.

A thumb turn that only locks the bad guys out

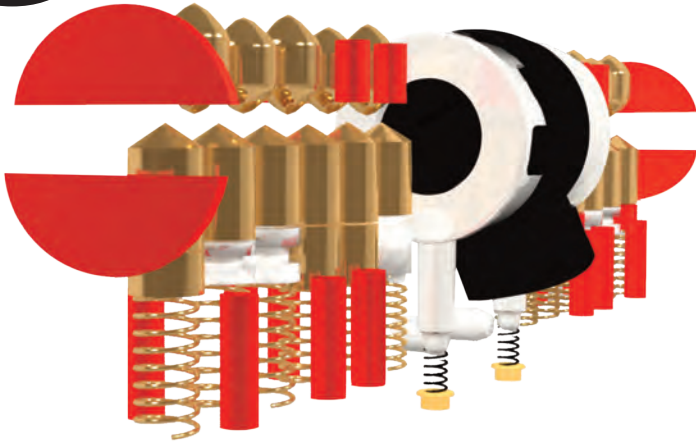

# Bump safe

Ultion's internal pins are engineered to protect you from an intruder bumping your door lock.

It may not be a common method of forced lock entry, but Ultion still has your back!

# 8 Drill defences

Drilling an Ultion lock is not something that happens quickly or quietly. Before the drill reaches the [molybdenum core](#) (that's 25% denser than iron), there are 8 hardened steel drill defences.
