

WINDOWS | DOORS | CONSERVATORIES

WINDOWS | DOORS | CONSERVATORIES

Congratulations! You have made the first step in buying new windows, doors or a conservatory for your home.

And what a difference they will make to you and your family... improved security, reduced energy bills, less noise and virtually no maintenance - not forgetting the visual impact - these are just a few of the ways you will benefit from our products.

With our new energy efficient frames, your home will be a 'greener' home too - by reducing the amount of energy you use to heat your home, our frames will help you to reduce the amount of greenhouse gases you produce.

Our products will enhance your home and your lifestyle.

With windows, doors and conservatories in a vast array of styles and colours - you have the opportunity to perfectly tailor them to your needs and requirements.

As your windows are fitted be sure to look for the VEKA branded tape. Check online to see a full list of Approved Installers.

www.vekauk.com/approved

VEKA Approved Installers demonstrate a commitment to quality by only using industry-leading systems from the world-renowned VEKA UK Group.

You can rest assured that all products fitted by your local VEKA Approved Installer have been CE Marked and come with an Insurance-Backed Guarantee.

Safe and Sound.

Keeping your family and your possessions safe are our top priority, the style comes as standard.

Our energy efficient windows and doors can be fitted with high security hook-locks and shootbolts to create a virtually impenetrable barrier to both the elements and intruders alike.

It's good to be GREEN.

Old windows, doors and conservatories are responsible for a significant proportion of wasted energy in homes across the UK
...but we have the answer!

People today are far more aware of the methods and means of reducing their impact on the environment when compared to just a few years ago. This in tandem with ever increasing energy prices has led homeowners to make improvements to their properties. Loft and cavity wall insulation, solar panels and energy efficient windows and doors are the main areas of 'green' investment.

And when you look at the infra-red images below, it is easy to see why more and more people are choosing to replace timber and even 1st generation PVC-U windows with the more energy efficient frames that are available today. It's such a simple way to save money and do your bit for the planet too.

Frame security

Our products can be fitted with ultra-secure multipoint locking systems, providing the highest levels of security and delivering total peace of mind.

We use top quality branded hardware. Our handles, locks, chains and letterplates are all engineered to the highest specification - giving you further reassurance that your windows, doors or conservatory will keep unwanted visitors out.

From start to finish our products are designed, developed, manufactured and installed to meet or exceed current British Standards.

Security and safety are of equal importance to us. These are not optional features.

Invest & protect

By investing in any of our high security window and door products you're making a big step towards a secure home.

Their considered design means these invaluable security items do not impede on the aesthetics of your windows, doors or conservatory in any way - they simply offer ultimate security and total peace of mind.

Key features

- Top branded, market leading hardware
- Locking window and door handles
- Option of multi-point hook locking system installed on all windows and doors
- Internally beaded windows and doors
- Concealed hardware - means minimal weathering and tough to access for intruders

Our windows meet and exceed latest industry standards, giving you the peace of mind to know that you are buying quality - BSI approved quality.

Our products provide...

Smaller energy bills

Replacing all single-glazed windows with B-rated double glazing could save you around £165 per year on your energy bills.

A smaller carbon footprint

By using less fuel, you'll generate less of the carbon dioxide that leads to global warming - typically, 680kg a year.

A more comfortable home

Energy-efficient glazing reduces heat loss through windows and means fewer draughts and cold spots.

Peace and quiet

As well as keeping the heat in, energy efficient windows improve sound insulation.

Reduced condensation

Energy-efficient glazing reduces condensation build-up on the inside of windows when vented.

Nothing but the best energy rated frames...

We have dedicated significant time and money in developing a range of energy efficient products, all of which are capable of achieving the highest Window Energy Rating (WER) values. The WER system allows consumers to make fair comparisons (based on energy efficiency) between different window manufacturers, much the same as with white goods such as washing machines and dishwashers.

PLUS they're low, low maintenance

Life is too short to be scraping and painting at rotten old window frames - and even the old discoloured PVC-U frames need more care and attention than they used to. With our frames, all you need is a quick wipe with a warm soapy cloth.

The warmest areas seen here in red show where heat is being lost from the building.

Red areas have been eliminated after fitting energy efficient VEKA windows.

Choose a FRAME.

Bevelled
An angular, contemporary design.

Sculptured
Distinguished by a softer, rounded appearance.

Flush
Our FlushSash is the Ideal window style for period properties, creating the heritage look with stylish, clean lines that sit flush within the frame

Can't decide? Ask your Approved Installer for advice.
Your Approved Installer has considerable experience not only in installing the best window solutions but also in what style, finish and colour will best suit your home.

Choose a COLOUR.

Our windows and doors are available in a wide range of woodgrain and coloured finishes to perfectly complement your property.

To ensure that you get the perfect colour match we offer swatch samples of every colour and woodgrain finish in our range.

Golden Oak

Basalt Grey

Black

Cream

Can't find the colour or finish you are looking for?
Ask your VEKA Approved Installer for further options.

Choose the WINDOW style to suit your home.

Casements

Casements are the most popular and versatile style of window that we offer. The number of arrangements and combinations of fixed and opening sections is endless - it really does come down to what you want and how you intend to use the adjacent room. Select your finish and hardware from a range of beautifully crafted locking handles, and that's it - we do the rest.

Our Casement windows deliver the complete solution for any property from period to contemporary.

Bows and Bays

Bow and Bay windows not only add distinction and character to a house - they add space too. The 'arc' of the Bow window offers a larger internal window ledge area and the Bay actually extends the footprint of the room it fronts.

Either way - the additional space and light, combined with the high visual impact make both styles of window an extremely popular choice.

Choose the WINDOW style to suit your home.

Vertical Sliders

Crafted with attention to detail, our Vertical Sliders combine the functional benefits and performance of a modern PVC-U window with the feel, aesthetic appeal and operational simplicity of a traditional timber window.

Our Vertical Sliders have a timeless elegance made with beautiful proportions and symmetry.

The modern Vertical Slider not only emulates the aesthetics of its traditional timber equivalent, but also offers additional thermal benefits.

Tilt and Turn

Tilt & Turn windows provide the ideal solution for locations where window safety and window access may be an issue.

The unique design means that the window can be set in one of two positions - tilted inwards from either the bottom or the side.

As a result of the unique properties of the Tilt & Turn window, they are ideal for apartments or flats, from the ground floor up.

Opening the DOOR to quality and style.

PVC-U Residential Doors

Residential Doors are the perfect choice for both front and back doors. We offer a wide variety of decorative PVC-U door panels and glass units for you to create a truly unique entrance to your home.

Side panels, aluminium low thresholds (Part 'M' compliant) and midrail letterplates are all options available on the residential door - as too is our exclusive range of hardware.

Composite Doors

Our Composite Doors offer all the traditional good looks of timber without any of the drawbacks. While timber may crack, split or warp and of course, need regular sanding and re-painting, Composite Doors require very little maintenance and offer security and performance coupled with stunning good looks.

A tough GRP surface which is highly scratch-resistant is mounted onto a composite material sub-frame, supported by laminated timber stiffeners and pressure filled with energy-efficient foam. The outer edge of the door is protected with a hard wearing PVC-U strip that provides a neat and durable finish.

Available in a range of colours including black, white, red, green, blue and woodgrain effect.

Change the way you live with BI-FOLD DOORS.

imagine
BI-FOLD DOORS

The VEKA UK Group

The Bi-Fold Door meets the demands of contemporary living and combines this with beauty and practical functionality. These aesthetically pleasing doors are configured into a number of concertina folds that can be pulled back to offer optimum versatility, light and access into any room.

Where an opening or partition is required between rooms, whether a small or large room, or where your home leads onto a patio or outside area and you want to extend your view of the garden, a Bi-Fold Door is ideal for these applications.

Bi-Fold Doors create synergy between rooms of all shapes and sizes to seamlessly connect your living space whether indoors or outdoors.

Before

After

The *Imagine* Bi-Fold Door makes an attractive alternative to a traditional sliding patio door, completely opening your home up to the garden or patio.

Imagine Bi-Fold Doors are available in a range of 19 different styles as shown - the choice is yours!

Innovative Bi-Fold Doors designed from the ground up.

Available in 19 door style configurations, The VEKA UK Group's *Imagine* Bi-Fold Door range offers 3 threshold options (standard outerframe, low threshold and ultra-low internal room divider) and the choice of sculptured or bevelled sashes and glazing beads.

Doors can be up to 6 metres wide with a sash width of up to 1 metre - meaning less profile, more glass and slimmer sightlines.

Beautiful DOORS to transform your home.

French Doors

French Doors enhance your home, bringing extra light and the illusion of more space. Internal or external opening, they create an attractive gateway to a garden or patio with minimal obstruction.

As a homeowner you will be able to enjoy a better view of the outdoors all year round. French Doors are also ideal for partition wall applications - from a kitchen to a conservatory area for example.

Patio Doors

The classic Patio Door offers a number of benefits, with no internal space required for opening and more light and space being the most notable.

Our Patio Doors create a seamless access point from house to garden, giving you a greater sense of space and allowing valuable light into your home.

A Patio with a midrail allows for the installation of a letter plate - ideal for porch applications. All our Patios come with superior security fittings (Anti jacking system, 4 point hook lock and reinforced frames), yet despite these features, the easy-glide doors boast slim sightlines, allowing you to see less frame and more garden.

Add light and space to your home.

Conservatories

Adding a conservatory to your home will enhance your lifestyle, by allowing you to make the most of the outside with all of the comforts of the inside.

A conservatory will create more living space, and allow you to enjoy the benefit of natural light.

As well as enhancing the appearance of your home, it will significantly improve the value too.

Choose your FINISHING TOUCHES.

Hardware

Choice and variety is at the heart of what we do. We have sourced a wide range of durable hardware in a range of colours and finishes that passes all of the toughest industry tests with flying colours!

We are confident that our high quality hardware will add the perfect individual touch to your windows, doors or conservatory.

Hardware Colours

White, Black, Chrome and Gold are available. Other colours may be available on request.

Door Handles

Knockers

Window Handles

Letterplates

Numerals

Door Chains

Glass

Choose from a wide selection of decorative patterns and obscurity levels to match your door style - from floral to traditional and fusion to bevelled in a choice of colours.

We offer an array of feature and security glasses, available in standard toughened or laminated finishes. We have a wide range of decorative glass styles for you to select from!
