

INFINITY RECYCLED SYSTEM

The choice for the environmentally conscious

Achieves A++ rating requirements

THE PERFECT SOLUTION WHERE THE ENVIRONMENT IS A PRIORITY

Clean bevelled lines give the Infinity a classic yet contemporary look. With a wide choice of window styles for all property types The Infinity system has become the system of preference for those who are more environmentally conscious.

The VEKA UK Group have pioneered the design and manufacture of window and door systems for over 30 years. With a continual investment in the profile systems it is now one of the most technically advanced on the market. A 10 year guarantee on all products, gives the added confidence that once fitted VEKA products will last for many years. Just a few of the many reasons VEKA is now one of the most specified uPVC systems in the world.

Why choose Infinity window systems?

Looks great on any property type

Clean bevelled lines give the Infinity a classic yet contemporary look with its wide choice of window styles that is suited to almost any property or building. The Infinity system has become renowned in the industry as a forerunner in both energy efficiency and reducing the carbon footprint of environmentally conscious homeowners.

The most environmentally friendly

The perfect choice for those looking to reduce the carbon footprint, these frames contain upto 80% recycled content. Choose infinity if you are looking for an environmentally friendly frame.

Ease of maintenance

Life is too short to be sanding and painting timber window frames, or even the older PVC frames still require some effort. This next generation of uPVC frames, are so much easier... all it takes is a simple wipe with a soapy cloth. No mess and definitely no fuss.

For the best
profile...
anywhere

Design

- The Infinity System features classic bevelled good looks to suit any style of property and is available in white. The virgin top skin ensures a perfect exterior finish which is 100% quality and colour compatible with the Matrix 70 suite of profiles.
- All profiles are extruded to BS EN12608.
- Fully compatible with the Matrix 70 system - existing manufacturing and component parts can be used.
- All Infinity recycled profiles are guaranteed for 10 years

Glazing

- An A++ energy rating can be achieved by upgrading to 40mm or 44mm triple glazed sealed unit. Thermal enhancements can be used to achieve a u-value of 0.8 for the passivhaus requirement.

Fittings

- We have a great range of hardware that will stand the test of time. Available in white, bright chrome, satin chrome, bright bronze, graphite, gold, black and antique black, all supplied with a 10 year guarantee.

Colours

- As standard the Infinity system is only available in white and can perfectly be co-ordinated with the matrix 70 system.
- Other colours are available on request subject to minimum order values.

What makes Infinity the sustainable choice?

The Infinity window system is designed in such a way that all recycled material is totally encapsulated within virgin raw material, ensuring the perfect surface finish that all VEKA systems are renowned for.

Recycled profiles contain up to 80% recycled content and the virgin top skin ensures a perfect exterior finish which is 100% colour matched to the matrix 70 system and comes with a 10 year guarantee.

Smaller energy bills

Replacing single glazed windows with uPVC can contribute to substantial savings in your energy bills.

A smaller carbon footprint

By using less fuel, you'll generate less of the carbon dioxide that leads to global warming.

A more comfortable home

Energy efficient glazing reduces heat loss through windows and means fewer draughts and cold spots.

Peace and quiet

As well as keeping the heat in, energy efficient windows improve sound insulation.

SECURED BY DESIGN EXPLAINED

Secured by Design was established in 1989 and is owned by the ACPO (Association of Chief Police Officers). It's now the police preferred standard focusing on crime prevention of homes and commercial premises.

In areas where the principles have been adopted crime has reduced by up to 75%.

ASSURE ENERGY RATINGS REGISTER EXPLAINED

The Assure Energy ratings scheme is used to give your windows a Windows Energy Rating (WER) in alignment with the "traffic light" system used in all domestic appliances.

A++ is the highest rating, which can be achieved on our Infinity recycled system.
