

# conservatory, orangery and home extensions **in** colour

# live life in COLOUR

You are already on the way to making a life changing decision by choosing a conservatory, orangery or home extension featuring Ultraframe's products. We deliver space - usable for a variety of activities - and natural light a plenty, to banish those winter blues!

Do you stick to conventional colours/finishes or do you choose something different? Carefully chosen colours creates a space that works best for you and your home. Please ask about our standard and bespoke colour options.

"

Colour - applied correctly has a profound positive effect on your wellbeing. It strongly influences how we interact with each other and our surroundings. So what can you consider for your home and conservatory? Consider this:-

#### Black

Powerful, sophisticated, substantial, uncompromising, reveals hidden potential

#### White

The colour of purity, well balanced, optimistic, and generous,

#### Cream

Stimulates the intellectual side of the brain and brings out feelings of happiness.

#### Greens

Not surprisingly green has a strong affinity with nature, offers harmony and balance and is mentally and physically relaxing.

#### Greys

Independent, individualistic and subtle, grey shields us from outside influence.

#### Browns

The colour of Mother Earth, brown brings stability and alleviates insecurity. Nurturing and supportive

### These conservatories feature major parts that are actually foil laminated, with only a minority of parts actually painted or extruded in base colours.

The foil laminated products used on major items in the roof and on the PVC side frames, have a real woodgrain texture to add a further dose of character. The products can be coloured or woodgrain foiled to one side or both sides with the possibility to mix colours between the outside and the inside.

Ask to see a copy of our coloured swatches or sample profiles before you order. If you can't see the colour you want - ask about our custom painting options.

A coloured conservatory consists of foiled and painted parts along with base colour extrusions. Every effort is made to ensure gloss levels are within reasonable tolerance. RAL and BS colour references are made in good faith. The colours above are reproduced as acurately as printing will allow, if in doubt always request an actual physical sample/foil swatch. White gutter on white foiled roofs and black gutter is standard on all colour/finishes except Rosewood and Light Oak, where base extrusion colours are used.

It is Ultraframe's policy to continually seek to improve its products, processes and services, and we reserve the right to change specifications without prior notice. Ultraframe is a trading name of Ultraframe (UK) Limited.
